## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **Listing of Claims:**

- 1. (Original) A bottle containing liquid medicine, the bottle having a neck containing a self-sealing closure, the bottle being flexible such that, when it is inverted or tilted downwardly, squeezing the bottle produces a flow of liquid medicine through the closure, and releasing the bottle terminates the flow of liquid medicine.
- 2. (Original) A bottle as claimed in claim 1, wherein the bottle has front and rear panels which may be urged towards one another to effect squeezing of the bottle.
- 3. (Original) A bottle as claimed in claim 2, wherein the front and rear panels are each outwardly bowed.
- 4. (Currently Amended) A bottle as claimed in claim 2 or 3, wherein the bottle is generally of box form, having larger front and rear panels connected to each other by two narrower side walls.

- (Original) A bottle as claimed in claim 4, wherein the maximum width of the front and rear panels is at least twice the maximum width of the side walls.
- (Currently Amended) A bottle as claimed in any preceding claim claim 1, having visually distinct upper and lower regions and a waist at the junction between them.
- 7. (Original) A bottle as claimed in claim 6, wherein the upper region has rounded, downwardly sloping shoulders extending from the neck of the bottle to the waist.
- 8. (Currently Amended) A bottle as claimed in claim 6 or 7 wherein the lower region of the bottle tapers from the base of the bottle to the waist.
- 9. (Currently Amended) A bottle as claimed in any of claims 6 to 8 claim 6 wherein the lower region is taller than the upper region.
- (Currently Amended) A method of dispensing liquid medicine, using a bottle as claimed in any preceding claim claim 1.
- 11. (Cancelled)
